69 Persons Safely Transferred to Weather Ship

Daring Rescue Completed in Stormy Atlantic After Night-Long Ordeal for Plane Passengers

NEW YORK, Oct. 15. — (BUP)—The last of 69 persons aboard the old flying boat Bermuda Sky Queen when it made a forced landing in mid-Atlantic yesterday were rescued early today by the Coast Guard.

A brief message from the Coast

Guard cutter Bibb at 2:45 a.m. reported that all were safe and the six-year-old flying boat would be destroyed. It was leaking badly. Those rescued today included 17 men and one woman who had spent a perilous night aboard the Sky Queen.

"All passengers and crew members aboard," said the terse message from Capt. Paul Cronk,

Automobile Destroyed, Garage Damaged in Night Fire

The car shown above was destroyed by fire which broke out in a garage located at 1114 87 avenue about 11:45 p.m. Tuesday. The garage was partly destroyed. One fireman was seen standing on the hood of the car endeavoring to douse the flames which were spreading

Waban, Mass., skipper of the Bibb. "Will advise further to passengers and crew details after careful check. Will recommend plane be destroyed. Paul Charles Martin agrees."

"THE PLANE landed in the ocean exhausted by strong headwinds while flying from Fuzes, Eire, to Baltimore, Md., by way of Newfoundland. The 62 passengers

aboard were a record number for a trans-Atlantic flight. Capt. Martin, 33, Miami, Fla., on the plane down in the water, charged by 25-foot waves, in what the Coast Guard described as an "incomparable landing."

None of the passengers or crew

Expanded and uninterrupted production of goods in this country is being deliberately sabotaged by industrial and distributing combines and monopolies and by those who deliberately are fomenting industrial unrest in furtherance of those philosophies which make capitalism a system of distress. Premier Ernest Manning told an audience of 250 persons in the Masonic Temple Tuesday night.

Mr. Manning announced that Tuesday's meeting was the first in a series of similar sessions in two ways. People are demanding an increased wage for their work, and they are demanding a system of price control.

Increased wages are always the premier pointed out, and artificial

Edmonton's burgesses will be asked to vote on a money by-law at the Nov. 5 municipal election to provide \$1,500,000 for the erection of an auditorium and an art and recreation centre.

Decision to submit the by-law to the taxpayers was made at Tuesday night's meeting of city council on a motion by Mayor Harry Aldrich.

The question to be submitted is "shall the city expend some \$1,500,000 to erect a building for the purpose of constructing within the City of Edmonton a municipal building to be used as a civic auditorium and art and recreation centre, and to incur serial debentures in the said sum not exceeding 20 years, with interest not exceeding four per cent payable semi-annually."

Aldrich stated it was not the intention to proceed with this construction and not rather to provide for municipal undertakings to meet the needs of the city. He stated that at other times because there was no accommodation for them in the city. He stated that the erection of such a building would be an asset to the city and that it was located in the city and estimated that it would be bringing a hotel project again.

Hint at Separate Immigration Dept.

By CHESTER BLOOM

OTTAWA, Oct. 15.—A decided hint that the government is considering establishing a separate department of immigration developed this morning at a press conference on reorganization of the department of mines and resources. J. A. Glen, the minister, asked by a reporter whether the re-organization did not mean that immigration was to be put under a separate department instead of as now under mines and resources. Mr. Glen replied "that's a matter of departmental re-organization. I cannot say anything about it."

Previously Mr. Glen had said that the matter of immigration would be dealt with later, no mention of it was made in the description of departmental re-organization.

OTTAWA, Oct. 15.—(CP)—Resources Minister Glen today announced a major reorganization of his department and estimated that as a result of the changes there will be an initial saving of \$800,000 annually and an eventual saving of between \$200,000 and \$300,000 annually. He said the savings would be effected through elimination of duplication of services, but it would not mean a reduction in the department's expenditures. Many developments delayed by the depression and the war have been brought back under the former setup there was a mines and geology branch, a lands, parks and forests branch, and a survey and engineering branch. Under the new set-up these branches will be reduced to

In Recently-Published Book Archbishop Rebukes Aged Bishop for Views

By Stuart Underhill

LONDON, Oct. 15.—(CP)—The Archbishop of Canterbury, high prelate in the Church of England, today rebuked the aged Bishop of Birmingham for views expressed in a recently-published book, "The Rise of Christianity."

U. S. Wheat Hits 3 Dollars

CHICAGO, Oct. 15.—(AP)—Three-dollars-a-bushel wheat turned up in the Chicago spot market yesterday for the second time in five trading days as the high cost of living stirred concern in the record peak again.

The major exception in the upward trend was butter, which dropped to the lowest level since 1935, the top grade selling at 67 cents a pound.

Chicago's wheat market is the largest in the world, with a daily trading volume of about 100,000 bushels. The price of wheat is a key indicator of the cost of living.

To Set Up NWT Power Commission

By CHESTER BLOOM

EDMONTON, Oct. 15.—(AP)—The federal government is planning to set up a North West Territories power commission to study the power potential of the territory.

The commission is to be set up in early 1948. It will be headed by a member of the federal cabinet. The commission's mandate is to study the power potential of the territory and to recommend a plan of action.

Production

(Continued from Page 1)

control of prices by means of subsidies as was done during the war can only be efficient as a temporary measure—in the same manner as a debt moratorium.

He offered what he termed "three steps to prosperity."

"The first of these was expanding and uninterrupted production, which is not taking place today, due not only to profit-hungry production and distribution, but also to labor unrest."

"We find case after case where men are pulled out on strike, not by their own wish, but at the orders of an international office which may be 2,000 miles away," Mr. Manning said.

"The result," he pointed out, has been that the wartime savings of the working people have been sacrificed to the need of purchasing power during strikes."

"There are forces at work today," he charged, "that are determined that workers shall not have the little independence their wartime savings afforded them."

He pointed out that he was in complete sympathy with union labor in its efforts to better conditions of the working people. Alberta, he said was one of the first of Canada's provinces to recognize the right of labor to organize and to have bargaining power.

Full and complete monetization of all the country's production was the second step to prosperity with which Mr. Manning dealt. He emphasized his belief that the amount of purchasing power distributed in the production of goods never is sufficient to pay for the goods produced.

THERE is evidence again in the disappearance of wartime savings being used to supplement personal incomes to keep pace with the rising cost of living. All classes of people fear for the future.

"They haven't heard the end of this thing yet, don't kid yourself about that," Mr. Manning said in reference to the Alberta Bill Rights, which had been found in-

valid by the highest tribunal in the British Empire.

"That bill had been drafted with the idea of giving the people of Alberta a sense of security and of banishing the fear of the future which was so general."

He declared that the government which had the constitutional authority to take the necessary steps to monetize Canada's production was not also constitutionally obliged to do so.

"The third step to banish fear of the future is to bring about the 'scientific distribution' of the difference between the amount paid for the production of the goods and prices at which the goods are sold. The latter figure being the monetized production of the country."

One method of distribution of this difference was in the reduction or elimination of taxation. Government social services could be paid by this means without resorting to taxation, which now is crowding private enterprise to the wall, the premier said.

This was deliberate, the premier thought. Those who manipulate the school board will be able to emerge from behind their screen when private enterprise fails and say, 'I told you so'—and institute a system of state socialism.

"Payment of a national consumer dividend was the second method of distributing the purchasing power established by the monetization of all production. By this means earned income would be supplemented without the necessity of going to savings to meet spiralling living costs."

BABY BONUSES were "slick political business," Mr. Manning charged. The amount is taken out of the pockets of the people and then turned to them, less cost of collection and distribution.

"Third method of distribution would be in compensated consumer prices. These could be paid for without the taxation necessary to maintain subsidies and would be the benefit to consumers rather than producers and distributors as were the wartime subsidies."

The people of Alberta must not be impatient that the rest of Canada had not yet realized the cure for depression and for the fear of loss.

He urged all Social Crediters to profess their belief in that philosophy, particularly in the presence of those who were not Social Crediters. He would like to see 60 or 70 thousand Albertans in Social Credit League organizations, all speaking in a united voice.

HON. A. J. HOOKE, provincial secretary, preceded the premier in the platform and told of efforts to attract tourists into the province and of the success which had met government attempts in this regard.

N. B. James, M.L.A., Edmonton in the chair. A number of musical items were presented.

Fight Partition

(Continued from Page 1)

plans for partition and enforcement by Oct. 27.

Dr. Francis Ed-Din, Syrian minister to Moscow, made a 75-minute speech last yesterday in opposition to partition, heaping much of his criticism on the United States and the Zionists.

HAD the criticism of Russia in spite of the fact that the Soviet Union had sided with the majority support of the partition plan. Zion Ed-Zin declared that "Zionism has formed a bridgehead in Palestine which is being constantly fed by money from abroad."

He said most of this money came from the United States, and commented that there were 40 times as many Jews in New York as in Palestine. He asked if the United States would agree to the partition of New York to form separate Jewish state.

The Security Council again failed yesterday to reach any decision on how to stop hostilities in Indonesia, where its ineffectual order has been unsuccessful, and put off the case until tomorrow.

Alderman, Trustee Plan to Retire

(Continued from Page 1)

Two Citizens Committee representatives, one an alderman, the other a public school trustee, will not seek re-election this year. It was learned Wednesday.

Alfred J. Munn, who was elected for a two-year term in 1946, has informed the committee that he will not seek re-election.

It is understood also that Prof. Andrew Stewart, who was elected for one-year term in 1946, will not be a candidate next year.

In the meantime the Citizens Committee is completing its list for the 1947 election, and the announcement of its candidates will be made next week, according to officials.

The Civic Democratic Alliance has nominated its mayoral and aldermanic candidates, and is expected to announce its public school board slate this week.

Two independent candidates are in the field. They are F. J. Taylor, automobile salesman, and Mrs. John Kinist. Fred J. Speed also has taken out a nomination paper, and has stated he will seek election to the mayoralty.

Payment of a national consumer dividend was the second method of distributing the purchasing power established by the monetization of all production. By this means earned income would be supplemented without the necessity of going to savings to meet spiralling living costs."

City Clerk George S. Docherty stated Wednesday that the preparations are proceeding in the field committee to have the elections held on Nov. 10.

There will be no contest in the separate school board elections. The city clerk says a further list of 187 boxes will have to be brought into operation.

At present there is no indication that any of the retiring separate school trustees will be opposed on Nov. 2.

Editorials

(Continued from Page 1)

becoming a fairly reliable index to reader following.

Differing from other forms of newspaper publishing the editorial side depended upon "the brains of the talent and the heart of Mr. MacDonald."

The newspaper which was content to write its editorials "by means of a paste-pot and scissors" naturally fell into a stereotyped groove and only exercised an infatigable, uncommemorative wit that method.

"There is nothing to indicate that a newspaper which writes well on lively issues loses anything by its editorial subject matter," said the C.D.A. general manager.

He declared that there still had to be "some relationship between readership and influence."

"There is still a terrifically high reverence of editorial," he said. On publishing costs, taking an index of 100, Mr. MacDonald said that on a global survey showed costs for all papers in the survey reached 124, while the average of Canadian publishers amounted to 100.

On national advertising Canada was foremost. "In Canada newspapers carry 60 per cent of the national advertising dollar, while in the United States it is only 48 per cent."

Re-introduction of price control on some of the basic commodities may become a necessary necessity if living costs continue to rise, according to Mr. Drummond.

Mr. Drummond said he felt "disturbed" when price controls were imposed in Canada, but that it was not long before their need was apparent as a buttress against the wild tide of post-war inflation which characterized the aftermath of the First Great War.

"It did not take long for people to realize their necessity in steering our economy away from inflation," said Mr. Drummond.

The speaker said, however, he was not less disturbed in the effects which might result from the suddenness of price control removal.

"Both here and in the United States the matter of prices will have to be watched very closely," he said, observing that if the present cost of living to the general public advances to unmanageable proportions depression will follow and will be acute.

In such an event the re-introduction of price controls on basic necessities would seem to be a wise move, said Mr. Drummond.

Bishop Rebuked

(Continued from Page 1)

knowledge about the historical person of Jesus Christ.

IN THE PROCESS, the bishop disavowed or omits to include much which holds a central place in generally accepted Christian doctrine or belief. . . .

"In many respects the bishop's book is a diminution of the Christian faith as to make the religion which is left inconsistent with the scriptural doctrine and the beliefs of the church in which he holds office."

Dr. Barnes, a brilliant 73-year-old scholar, has published many papers on theological and mathematical subjects.

"The Rise of Christianity" was criticized last week-end as a letter signed by the executive of the sports union which said it contained "very grave divergences from the doctrine of the Universal Church and in particular of the Church of England."

THE LETTER said the book denied the possibility of miracles, although the author said he personally worshipped Jesus as divine, the Catholic doctrine of incarnation was clearly rejected.

THE BOOK charges "a serious blow against the claim of the Church of England to be the guardian and witness to the Christian faith," the letter continued.

Packers' Strike

(Continued from Page 1)

union men were charged with obstructing sidewalks or failing to move on when ordered. Later arrests of union leaders on contempt of court charges boosted the total charged to 141.

LABOR MINISTER Antonio Barrette of Quebec commenting on the central picket's action said they are in the province "agitating and for foreigners—the Communists—to sow discord here."

The Ontario formula was announced by Labor Minister Charles Daley yesterday when he said that Canada Packers and Burns had reached agreement with the union "on procedure for the disposal of the matters in issue."

Their presumably included the union's basic demand for higher hourly wages.

But Mr. Daley said, Swift's had refused to accept the formula which was "predicated on an immediate return to work by the employees of the two companies."

ONTARIO LABOR Minister Daley said that two of the three major strike-bound packing companies have reached an agreement with the United Packing Workers of America (U.P.W.A.) on procedure for disposing of the matters in issue.

The third company—Swift Canadian—has refused to accept the proposed settlement formula. Mr. Daley said is a prepared statement.

The suggested procedure was "predicated on an immediate return to work by the employees of the two companies," Canada Packers Limited and Burns and Company.

The statement said "significant progress" was made yesterday in negotiation meeting between the company and union, "both parties making substantial concessions on issue in dispute."

HOWEVER, Mr. Dowling's statement said: "We note Mr. Taylor's statement that the union is still meeting with the company and we have hopes for an early settlement."

The speaker said, however, he was not less disturbed in the effects which might result from the suddenness of price control removal.

"Both here and in the United States the matter of prices will have to be watched very closely," he said, observing that if the present cost of living to the general public advances to unmanageable proportions depression will follow and will be acute.

In such an event the re-introduction of price controls on basic necessities would seem to be a wise move, said Mr. Drummond.

Gas Nationalization Likely in Britain

(Continued from Page 1)

LONDON, Oct. 15.—(AP)—A well-informed source said today that the government "quite likely" would nationalize the gas industry during the coming session of parliament but postpone public ownership of the iron and steel industry for at least a year.

The source said the House of Commons will be asked to approve the decision which will be announced, will be delivered to parliament on Tuesday and the cabinet will be asked to approve it.

A bill already had been prepared for gas nationalization. Both gas and steel nationalization projects were part of the program of public ownership which the Labor government was elected to power more than two years ago.

By-Law Vote

(Continued from Page 1)

position to city council in the near future.

Several aldermen expressed themselves as favoring the project but doubted the wisdom of submitting the question to the burgesses at this time. Some complained they had insufficient information on the project to deal with the question and suggested postponement.

Mayor Ainsley stated that he had spoken on the question to numerous organizations, and had received their endorsement to the project. He was of the opinion that the present was the psychological moment to submit the by-law.

Ald. A. Bisser, K.C., said there was no doubt of the need for the building, and saw no reason why the ratepayers should not be given the opportunity to express their views on the project. Ald. H. E. Tanner took a similar stand on the question.

The proposed auditorium will have a seating capacity of 2,200, and also will have numerous small meeting rooms, included in the plans is provision for banquet halls, cafeteria, foyer, rest rooms and other spacious facilities.

John L. Lewis

Fear 4 Drowned

(Continued from Page 1)

UCLEULET, B.C., Oct. 15.—(CP)—One man is known dead and three others feared drowned while returning to the head of Uclulet lake in a small boat after leaving a dance here Sunday night, police reported today.

The police said the man who was known dead was the son of the owner of the boat. The other three were feared drowned.

Let's RING the Bell!

Let's Reach Our Objective: \$125,000

A clever "mimic" used in the Canadian Army's training maneuvers, he illustrated that no matter how exhausted a man was, he always had enough "zip" left over to reach his objective. After hours of back-breaking physical labor, a trainee would be called upon to move — at the double — a couple of miles or more. . . . after he had given up all hope of even taking another step.

You've noticed that no matter how much effort you give a job, you always manage to find a bit more to clear the final hurdle. That's the way it is with your Community Chest this year: one expense after another, soaring costs of living — and now a Community Chest appeal!

Impossible to contribute? Don't know. The Community Chest is something that can't be ignored — it means too much — to everyone.

From somewhere we must find that little amount of support which, with everyone else's, will bring the total to that \$125,000 objective. With each dollar donated, we further the work of twenty-seven social service member organizations of the Chest, help, in other words, to make our good community better — for everybody.

When the Red Feather campaign calls on you — be ready. Do your part to ring the campaign bell.

It's Everyone's Responsibility

GIVE GENEROUSLY

Transfer Craft to Halifax

RCAF Launch Ends 7,300-Mile Jaunt

By Joe MacSweeney

HALIFAX, Oct. 13.—(CP)—Ten bronzed and "water-winded" members of the RCAF last night stood grinning and waving happily from the deck of the high-speed motor launch Takuli as it completed "Operation Porpoise," a 7,300-mile jaunt through the Panama Canal from Patricia Bay, B. C.

AS THE TAKULI streaked at nearly 50 knots out of an Atlantic fog into the harbor, air force officers were caught flatfooted and were forced to call off elaborate welcome parties which included both air and water craft. The launch arrived hours earlier than expected from Norfolk, Va.

FOR TWO WEEKS the Takuli travelled the edge of a hurricane after emerging from the Panama Canal. Previously, the crew had indulged in holiday festivities in a Mexican while tied up at Mazatlan on the west coast. Excitement included a murder several yards along the dock from the Takuli.

A fire also broke out at a nearby cannery factory, forcing the air force craft to move to sea for several hours. Crew members were told in praise of hospitality and help at

To Call Tenders Bus Debentures

City council Tuesday night authorized the calling for tenders on the issue of \$500,000 worth of debentures to cover the cost of trolley coaches delivered for the transit system this year, and gave first reading to the bylaw covering the proposed debenture issue. This bylaw now will be sent to the board of utility commissioners for approval.

It is proposed to make the issue on a 15-year basis, which is the estimated lifetime of the coaches with interest rates of 2 1/2 to three per cent.

The debentures will be payable in 15 annual instalments of principle on the first day of December in each of the years 1948 to 1962, both inclusive, the amount of principal payable in these years being fixed at \$30,000.

DEBENTURES maturing in the United States bases on both ocean coasts.

None was more grateful than the cook, Cpl. F. Manderon of Vancouver, who lost 25 pounds on the voyage. "Losing the weight," he said, "was something of a blessing as it enabled me to turn around in my tiny galley."

Claims Demand By Molotov Turned Hitler Anti-Soviet

NEW YORK, Oct. 13.—(CP)—James Byrnes, former state secretary of the United States, writes in his book "Speaking Frankly" published yesterday that the turning point of the Second World War was precipitated by Hitler's anger at blunt Russian demands for concessions in the Balkans and in the Baltic.

Molotov had talked to Hitler Nov. 12 and 13, at the moment when the Fuehrer was riding the crest and was certain of victory. The Russian had the temerity to question and criticize Hitler's plans and to demand an immediate reply.

That, Byrnes writes, was a "major diplomatic blunder" and he added:

Historians may discover when Hitler decided to make war on Russia. He may previously have considered it in a general way but until I see other evidence I shall believe that this interview with Molotov was the decisive moment. Certain it is that from that fatal Nov. 13 Hitler's German relations steadily declined.

Byrnes comments that Russia is achieving most of the conditions which so angered Hitler.

Threshing Resumes In North Alberta

A large number of farmers in Central and Northern Alberta resumed interrupted threshing operations Tuesday morning, according to A. M. Wilson, field crops commissioner, who thought that the winds of the last few days would have dried stocks and swaths sufficiently for a new start to be made.

Untold damage from sprouting has taken place, Mr. Wilson said, particularly in those fields where grain was swathed close low or light stubble. In such cases the situation was "almost hopeless," he added.

However, swathed grain on high, thick stubble was in the healthiest condition of any cut crop. Wheat in the stock has sprouted, he said, in most of the stock fields with two or three inches of green growth on the tops of the stalks.

Field mice are also reported to be heavily damaging crops, nesting in the base of stalks and under swathed grain.

Farmers will probably recultivate every available harvest land to get the crops off their heads. Mr. Wilson pointed out that even if threshed grain was damp and required considerable handling to avoid heating, farmers would be repaid to thresh it rather than let it be caught in winter conditions and snow.

Immigrants to Use Former RCAF School

REGINA, Oct. 13.—(CP)—The Leader-Post yesterday said in a news story from Moose Jaw, Sask., that the former Royal Canadian Air Force flying training school there would be used as a "clearing house" for European displaced persons reaching Western Canada as immigrants.

The newspaper said possibly 1,000 new Canadians would be housed. Some 58 Canadian-born Canadians now are there pending action of their demands to be returned to British Columbia rather than be resettled elsewhere in the country. The Leader-Post also said the Saskatchewan government would like certain of the buildings to accommodate employable patients now in its overcrowded mental institutions.

70,000 New Homes Forecast This Year

OTTAWA, Oct. 13.—(CP)—More than 70,000 new homes will be completed in Canada this year, a still larger number will be built next year, George McIlraith, parliamentary assistant to Reconstruction Minister Howe, said in an interview Tuesday. Building supplies were flowing more freely, he added, on his return from a trip to Vancouver with Mr. Howe and officials of the Central Mortgage and Housing Corporation. The main difficulty in housing was a shortage of serviced land, and the government was co-operating with communities and urging them to construct sewers and services to permit expansion of home building.

Refuse Out Bail Jewel Theft Case

VANCOUVER, Oct. 13.—(CP)—Magistrate Macdonald, Matheson yesterday refused to reduce the \$2,000 bail set in the case of Eugene Barker Richardson, 29, charged with retaining \$6,000 in jewelry stolen from a wealthy Vancouver woman. Police said Richardson was a former convict in both Canadian and British armies and a Cambridge graduate. Trial of the accused was adjourned for one week.

Ex-Burma Premier Planned Suicide

BANGKOK, Oct. 13.—(Reuters)—U. Saw, former Burmese premier on trial here on charges of assassination, made a vain attempt to commit suicide in prison, the Hangoon Mirror reported Tuesday. The newspaper said prison authorities discovered last week-end an attempt by U. Saw to believe an official to procure for him a revolver and some arsenic. No official confirmation of the report could be obtained.

Mother, Children Suffocated by Gas

MONTREAL, Oct. 13.—(CP)—A mother and two of her children were asphyxiated by gas when the family bloused over on their kitchen stove, putting out the flame and filling the house with gas. The victims, Mrs. Anette Richard, 32, Pauline, nine months and Maurice, five years. A third child, who is in hospital in serious condition.

48 Health Centres Have Leaders Here

Edmonton leaders of Health and Recreation held their October meeting recently, when it was announced that 48 centres were allocated to leaders in all parts of the city.

For information those interested are asked to call Miss Dorothea second club of business women organized in Canada.

Mrs. Allan McLellan and Miss A.H. It is revealed that a small group of Grant of Vancouver are visitors in the city, guests at the Macdonald Hotel.

Business and Professional Group to Mark 25th Year

The Canadian Business and Professional Women's Club of Edmonton will celebrate its 25th anniversary next Monday. Edmonton was asked to call Miss Dorothea second club of business women organized in Canada.

Turning back the pages of time, it is recalled that a small group of Grant of Vancouver are visitors in the city, guests at the Macdonald Hotel.

The business club progressed as planned on schedule...
of the year 1914-1915, which was carried on under the direction of Mrs. J. C. Sherry, but the club was not disbanded, and a committee headed by Miss Nellie carried on until October, 1932, when the club was reorganized.

Under Miss Emma Jones, now Mrs. E. Bryan-Johnson, as president, the new-constituted and re-organized Canadian Business and Professional Women's Club of Edmonton affiliated itself with the International Federation of Business and Professional Women's Clubs.

The business club progressed as planned on schedule...
of the year 1914-1915, which was carried on under the direction of Mrs. J. C. Sherry, but the club was not disbanded, and a committee headed by Miss Nellie carried on until October, 1932, when the club was reorganized.

The business club progressed as planned on schedule...
